

Hired Out Plant Insurance Waiver

Kent Hire Limited can help support your business by waiving your requirement to Insure Plant and Equipment you hire from them under their Conditions of Hire.

What is Covered?

In return for an agreed fee, Kent Hire Limited will cover the Plant and Equipment up to £100,000 in value against 'All Risks' of Accidental Damage, Fire and Theft while the machine is on hire to you anywhere in the UK (including while in Transit).

What is Not Covered?

(Principal Exclusions)

- ✚ Intentional act, wilful omission, neglect or failure to take reasonable precautions to prevent a loss
- ✚ Wear and tear, breakdown or inevitable damage
- ✚ Damage to ground engaging parts
- ✚ Damage caused as a result of using Plant and Equipment outside the scope of the manufacturers' recommendations
- ✚ Use underground, offshore or on water
- ✚ War and/or Terrorism risks

What am I Responsible for?

You still have responsibility for the machine under the Conditions of Hire and a legal duty to keep it safe. In the event of a loss you are responsible for the first £500 of any damage if the machine is under £10,000 in value. The £500 increases to £1,000 in respect of theft or malicious damage for items over £10,000 in value.

Please Note that **HIREMAX** only covers loss of or damage to the Plant and Equipment, it does not cover damage caused *by* it.

You will still be responsible for any damage caused to third party property along with death or injury to a member of the public caused as a result of your negligence.

What do I do in the Event of Loss or Damage?

You must immediately notify :-

- ✚ Kent Hire Limited, advising time and date of the incident, the circumstances, and details of any third parties involved.
- ✚ The Police, in the event of Theft or Malicious Damage. It is imperative you obtain a crime reference number.

Securing Plant & Equipment – Best Practice

If items hired in from Kent Hire Limited are left unattended, overnight or at weekends:

Self-Propelled Plant

- ✚ All immobilisers and security devices should be activated, all doors locked and keys removed and if possible keys taken off site or otherwise locked in a secure building.
- ✚ Where possible locked in a secure compound, building or yard.
- ✚ Care should be taken to park machines in such a way as to block each other in making opportunistic theft difficult.

Non-Self Propelled &/or Mechanical Plant or Equipment

- ✚ Locked in a secure compound, building or yard ideally in a locked site container

I have reviewed and understood the Summary of the benefits of the **HIREMAX** cover and accept the additional charge on the hire for this cover.
